

# DECOMPOSER DEPOSITION

CAN YOU FIND ENOUGH EVIDENCE TO HELP THE DEPARTMENT OF DECOMPOSITION? COMPLETE AT LEAST FIVE ACTIVITIES FROM THIS LIST TO BUILD A STRONG CASE!

**Find something that is no longer living**

**Draw a Prokaryotic (Bacterial) cell (example in Slideshow above)**

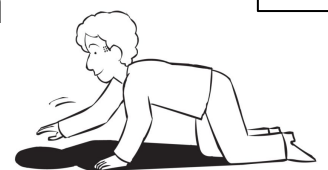

**Safely lift a rock or brick and see if any invertebrates are underneath**

**Find something that will someday decompose**

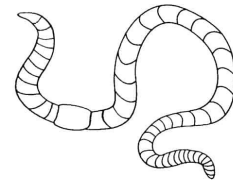

**Crawl on your hands and knees and search the ground or floor like a decomposer does. Did you find anything?**

**Check the expiration date of 4 foods in your house**

**Draw one of the FBI in your Nature Journal**

**Write a short story about a time you've seen an invertebrate**

**Wash your hands for 20 sec to get rid of bad bacteria**
